

Vision Statement

USEUCOM J4 Directorate

To provide first class planning and coordination for Logistics & Security Assistance within the EUCOM AOR, while leading DoD in implementing the tenets of Focused Logistics.

To accomplish this, ECJ4 will be:

- **A forward thinking Directorate with the ability to both deal with critical short term issues and improve the long term capability to support USEUCOM's warfighting and other crisis operations**
- **A Directorate where every Soldier, Sailor, Airman, Marine, Coast Guardsman & Civilian is encouraged to bring their unique talents, experiences and perspectives to bear on the critical issues facing USEUCOM**
- **A Directorate grounded in mutual support, effective communications and full coordination of its individual elements in the execution of the USEUCOM mission**

Long Range Objectives

(More Than Two Years)

- **Develop ability to analyze capability of EUCOM Component forces (logistic, medical & engineering) against JMRR, JROC & JSCP scenarios**
- **Develop & implement process to more fully integrate planning & management of contingency real estate requirements across EUCOM's AOR**
- **Develop & implement process to more fully integrate national & multi-national (particularly NATO) logistics & host nation support with US capabilities to enhance EUCOM's warfighting capabilities**
- **Continue support of TRANSCOM & CENTCOM in establishing improved enroute infrastructure through implementing of "Six Bases - Lose One" strategy**
- **Continue efforts to secure funds required in theater to meet DoD housing standards by 2010**

Short Range Objectives

(Less Than Two Years)

- Provide timely & accurate inputs to FY01 QDR, JMRR, JROC & JWCA processes
- Assist ECJ3 to successfully implement 72-hour TPFDD standard
- Develop & implement plan to reinforce successes of Operation ALLIED FORCE, and institute logistics lessons learned
- Continue to establish ACSAs with all eligible nations in theater
- Successfully establish SAOs in Moldova, Georgia, Nigeria & Sweden
- Establish generic SAO/ODC baselines for mission, structure & criteria for change
- Establish metrics & methodology to link RPM/MILCON funding requirements to readiness & deployment capabilities
- Gain NATO Infrastructure Committee approval of the Livorno Capability Package
- Establish procedures & processes to provide logistics guidance for crisis action & deliberate planning
- Continue improvement in the Theater's ITV & AIT capabilities to include TC-AIMS II, JFRG II & road/rail ITV for each component
- Establish core data to be tracked for all deployments, redeployments & exercises
- Get NS Rota MILCON actions approved by Spanish government by end of FY00
- Publish ED 64-1, Theater Transportation Policy & Management, & ED 66-2, Theater AIT Implementation Policy, by 1st quarter FY01
